Webcasts will be available at the start of the presentations on the investor relations section of the Company's website, www.blackdiamondtherapeutics.com. Replays of the presentations will also be available and archived on the site for 90 days.

About Black Diamond Therapeutics

Black Diamond Therapeutics is a clinical-stage oncology company developing MasterKey therapies that target families of oncogenic mutations in patients with cancer. The Company's MasterKey therapies are designed to address a broad spectrum of genetically defined tumors, overcome resistance, minimize wild-type mediated toxicities, and be brain penetrant to treat central nervous system disease. The Company is advancing a Phase 2 non-small cell lung cancer (NSCLC) trial of silevertinib, a brain-penetrant fourth-generation epidermal growth factor receptor (EGFR) MasterKey inhibitor targeting EGFR-mutant NSCLC and glioblastoma.
