

BLACK DIAMOND THERAPEUTICS

Black Diamond Therapeutics to Present at the Cowen and Company 40th Annual Health Care Conference

February 24, 2020

CAMBRIDGE, Mass. and NEW YORK, Feb. 24, 2020 (GLOBE NEWSWIRE) -- Black Diamond Therapeutics, Inc. (Nasdaq: BDTX), a precision oncology medicine company pioneering the discovery and development of small molecule, tumor-agnostic therapies, today announced its President and Chief Executive Officer, David M. Epstein, Ph.D., will present an update about the Company's business at the Cowen and Company 40th Annual Health Care Conference in Boston, Massachusetts. The presentation will take place on Monday, March 2, 2020, at 1:30 PM ET.

About Black Diamond

Black Diamond Therapeutics is a precision oncology medicine company pioneering the discovery of small molecule, tumor-agnostic therapies. Black Diamond targets undrugged mutations in patients with genetically defined cancers. Black Diamond is built upon a deep understanding of cancer genetics, protein structure and function, and medicinal chemistry. The Company's proprietary technology platform, Mutation-Allostery-Pharmacology, or MAP, platform, is designed to allow Black Diamond to analyze population-level genetic sequencing data to identify oncogenic mutations that promote cancer across tumor types, group these mutations into families, and develop a single small molecule therapy in a tumor-agnostic manner that targets a specific family of mutations. Black Diamond was founded by David M. Epstein, Ph.D., and Elizabeth Buck, Ph.D., and, beginning in 2017, together with Versant Ventures, began building the MAP platform and chemistry discovery engine.
